## *Sustainable for Generations*

The most environmentally friendly flooring available are authentic wood floors. Trees are a renewable resource and provide flooring that is sustainable for many generations. All Viking Hardwood Flooring products are made with raw material originating from sustainably managed forests.

Our beautiful hard maple flooring adds simple, subtle sophistication to any decor. Clean lines, designer colors, and smooth finish will make your space feel sleek and fresh.

Our premium red birch flooring is unique and beautiful, offering distinctive gold and cinnamon colors, selected from the reddish-brown heartwood of the birch tree.

The Contemporary Collection utilizes state-of-the-art manufacturing methods and premium natural materials. It features an antimicrobial, crystal-clear finish that not only provides exceptional durability but also enhances the wood's natural beauty. The antimicrobial technology protects your floors by hindering the growth of harmful microorganisms, which can impact indoor air quality and floor cleanliness. By choosing the Contemporary Collection, you are investing in a timeless, sustainable product designed to last for years while supporting a healthier home environment.

Beautifully Crafted Canadian Hard Maple & Red Birch with Designer Colors

\* Please remember that one of the beautiful properties of wood is that it is a product of nature and natural variations in color and grain pattern are to be expected. These color swatches are provided to assist you with general color selection and appearance but will not show all the characteristics of the final installed product. Multiple sample boards or a full carton of material will give you a more accurate representation.
