Sustainable for Generations

The most environmentally friendly flooring available are authentic wood floors. Trees are a renewable resource and provide flooring that is sustainable for many generations. All Viking Hardwood Flooring products are made with raw material originating from sustainably managed forests.

Our beautiful hard maple flooring adds simple, subtle sophistication to any decor. Clean lines, designer colors, and smooth finish will make your space feel sleek and fresh. The Contemporary Collection utilizes state of the art manufacturing techniques and the highest quality natural materials. These warm, neutral colors are ideal for minimalist, open spaces. With fifteen colors to choose from you are sure to find a style that will add an element of contemporary design to your interior that stands the test of time.

Beautifully Crafted Canadian Hard Maple with Designer Colors

* Please remember that one of the beautiful properties of wood is that it is a product of nature and natural variations in color and grain pattern are to be expected. These color swatches are provided to assist you with general color selection and appearance but will not show all the characteristics of the final installed product. Multiple sample boards or a full carton of material will give you a more accurate representation.
