

Refined Craftsman Collection

Infusing Timeless Spaces with Modern Refinement

Pictured: Hidden Alcove

The Story of Refined Craftsman

Inspired by homes with history, this collection strikes a perfect balance between past and present, featuring 5-3/4" wide planks that suit both classic architecture and contemporary settings. Its versatile width also makes it an ideal choice for smaller homes or spaces where wide planks can feel too prominent. Crafted from premium European white oak, each plank is engineered for lasting durability and enhanced stability. Artisan finishing techniques bring out the wood's natural texture, adding warmth and character.

Whether restoring a historic gem or creating a new build with soul, Refined Craftsman feels right at home.

Sustainable for Generations

The most environmentally friendly flooring available are authentic wood floors. Trees are a renewable resource and provide flooring that is sustainable for many generations. All Viking Hardwood Flooring products are made with raw material originating from sustainably managed forests.

Disclaimer: Please remember that one of the beautiful properties of wood is that it is a product of nature and natural variations in color and grain pattern are to be expected. Color swatches and room scene images are meant for inspiration and to aid in color selection. Actual products may vary. Multiple sample boards or a full carton of material will give you a more accurate representation. All dimensions listed are approximate.
