

# Urban Rustic Collection

Sophisticated, Rugged Beauty with Artisan Craftwork

Pictured: Canyon Rim

Bring an element of rugged, natural beauty into your home with the Urban Rustic Collection, offering artisan craftsmanship in each individual plank.

Urban Rustic is designed around a specific selection of European Oak timber. Select forests yield a continual crop of mature oaks which have grown in perfect conditions on untouched soils for centuries. Older trees are carefully harvested leaving their branches and foliage on the forest floor to feed the younger trees. From these old oaks, a piece of artistry is created with a reclaimed feel.

The collection also includes a North American Walnut option featuring distinctive knots and grain pattern. Enhanced with advanced staining techniques that lighten the natural tone, it offers a unique blend of warmth, character, and sophistication.

## *Sustainable for Generations*

The most environmentally friendly flooring available are authentic wood floors. Trees are a renewable resource and provide flooring that is sustainable for many generations. All Viking Hardwood Flooring products are made with raw material originating from sustainably managed forests.

Disclaimer: Please remember that one of the beautiful properties of wood is that it is a product of nature and natural variations in color and grain pattern are to be expected. Color swatches and room scene images are meant for inspiration and to aid in color selection. Actual products may vary. Multiple sample boards or a full carton of material will give you a more accurate representation. All dimensions listed are approximate.
